

Hello

We are
OnePiece Work
Santa Monica

**ONEPIECE WORK
IS MORE THAN
JUST A
COWORKING
SPACE.**

We are a global tech community founded on the idea that together, we can unlock new potential across industries and borders.

At OnePiece Work, we believe that everyone belongs. A study discovered a 25% decrease in minority professionals' confidence in their workplace culture, growth opportunities, and feeling of belonging at work. That's how OnePiece Work was born.

We set out to create an inclusive global community that fosters personal and professional growth. Since our founding, we've partnered with over 250 companies across more than 30 industries — establishing OnePiece Work as a place to create, collaborate, and thrive.
